Electronic Controller

RD500-0 / RD505-0

RD500-0

Rain Deck Electronic Splash Pad Controllers set the industry standard for splash pad control systems. The Rain Deck controllers provides the user with a scalable number of solenoids and up to 4 pre-programmed spray sequences. The controllers are completely compatible with fresh water “pass through” systems and recirculation systems.

RD500-0 provides the following four programs:

- “A” Random Program.
- “B” Sequential through solenoids with an all on finale.
- “C” Two solenoids on at a time in a random order.
- “D” All solenoids on.

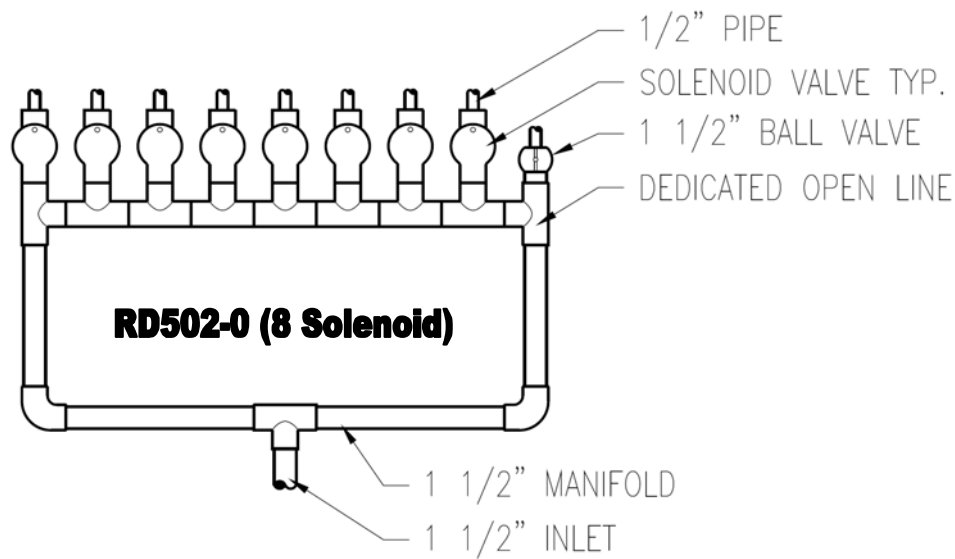

Includes:	Rain Deck Scalable Electronic Controller
